

# Admission Information

Please read this booklet and return the completed forms to the hospital as soon as possible after your appointment with your specialist.

For your convenience, you can also fill these forms in online. Visit the hospital website and click on the **online admission forms** link or visit [mycare.ramsayhealth.com.au](http://mycare.ramsayhealth.com.au)

## Thank you for choosing our hospital

### Please ensure all forms are forwarded to the hospital promptly in order to confirm your admission.

In order to ensure your admission is streamlined, we request that you complete this hospital admission form prior to your admission date.

You will need approximately 30 minutes to fill in this form. It may be faster and easier for you to fill in the form online. Visit the hospital website and click on the online admission form or visit **[www.mycare.ramsayhealth.com.au](http://www.mycare.ramsayhealth.com.au)**. By completing your admission form online, some of this information will be retained for future admissions and will only require updating.

**We apologise for the length of these forms but much of the information required is dictated by Commonwealth or State legislation or is required by your health fund.**

### To assist you with this process, it is advisable that you have the following information at hand:

- Personal/Next of Kin details
- Medicare Card
- Funding details (eg DVA, Private health insurance, workcover or self funding)
- Benefit details (eg pharmacy benefit card or pension card)
- Item numbers if these were quoted by doctors' rooms
- Information your doctor supplied to you re implantable medical devices (eg prosthetic and disposables) – if applicable
- Medication information

*If you have private health cover, we recommend you contact your health fund prior to admission to check for any excess or waiting periods. We know that health and billing charges can be difficult to understand and we are happy to assist in any way we can, however we also advise that you seek clarification from your doctor and health fund.*

When you have completed filling in this admission form (and unless you have completed the forms online), please return it to the hospital in one of the following ways:

**a. Post to**

Westmead Private Hospital

PO Box 161, Westmead NSW 2145

(Please note that for Maternity admissions only original paperwork will be accepted)

**b. Fax to** (02) 9687 9310 if faxing, please bring the original forms on the day of admission; or

**c. Email to** [wmprecp@ramsayhealth.com.au](mailto:wmprecp@ramsayhealth.com.au)

**d. Hand deliver to hospital reception (open 6am – 9pm Monday to Sunday).**

**It is essential that the hospital receives these forms as soon as possible to confirm your admission**

### The Day Prior to Admission

The Hospital will contact you after 3.30pm on the weekday prior to your admission to:

- Confirm admission and fasting times
- Discuss your hospital charges and health fund cover

If you have not been contacted by 7pm, please phone (02) 8837 9000 for details.

Westmead Private Hospital  
Cnr Mons & Darcy Roads, WESTMEAD NSW 2145

Tel: 02 8837 9000

Fax: 02 9687 9310

Web: [westmeadprivate.com.au](http://westmeadprivate.com.au)

## Booking online?

Head to **[westmeadprivate.com.au](http://westmeadprivate.com.au)**  
& follow the **Pre Admission Form** links!

# Preparing for your Admission

We are committed to providing patients with the highest standards of care. Throughout your stay, from pre-admission to discharge, you will be treated with the utmost respect and dignity.

After you have completed and returned the attached forms (or completed the online forms) you may be contacted by telephone prior to your day of admission by a preadmission nurse to get further details.

Your doctor will also explain your procedure or operation and complete the enclosed consent form with you.

## Preadmission

You may be asked to attend a preadmission clinic or contacted by the hospital preadmission nurse prior to your admission so we can speak with you about your hospital stay, your operation, previous surgical and medical history, what to bring to hospital, as well as allay any concerns you may have.

Discharge planning will also be addressed at this time (eg who will care for you at home on discharge, who will take you home etc). You are welcome to bring a relative or friend to this clinic.

# Day of Admission

## On the day of admission

You will be informed of the scheduled time for your surgery and subsequent 'nil by mouth' time by your doctor or the hospital.

### Fasting Time

This is a period of time, prior to your operation, when you will have a restricted diet or not be allowed to eat or drink (including water). This time is determined by your Anaesthetist or Surgeon and is related to factors such as your age and the type of operation. It is imperative that fasting times be observed for your safety during your anaesthetic.

If you have any questions about your fasting times please check with your doctor or contact the hospital.

Please shower before your admission to hospital.

**Please bring with you into hospital anything applicable to your admission including:**

- doctor's admission letter
- consent form (if not already returned to the hospital)
- health fund number / details (if applicable)
- medicare card
- regular medications in original packaging
- pension health benefits card (if applicable)
- pharmaceutical benefits card (if applicable)
- relevant x-rays and / or test results
- for a child - favourite toy, formula, bottle and any special dietary needs (if applicable)
- Children may go to the procedure/theatre in their own pyjamas. These pyjamas must be cotton or cotton interlock with button through/loose fitting tops
- comfortable closed in shoes/slippers with non-slip soles
- night attire (if staying overnight)
- toiletries
- aides such as walking sticks, hearing aides or glasses
- personal articles i.e. sanitary pads (if applicable)
- method for settling your account
- certified copy of Advanced Health Directive or Enduring Power of Attorney (if available)
- please do not bring valuables as the hospital will not be liable for any loss

### DO NOT:

- Smoke cigarettes or **chew gum**
- Wear jewellery. A wedding ring and watch are permitted
- Bring valuables ie. mobile phones and large amounts of cash. Mobile phones can interfere with some medical devices and may not be able to be used whilst in hospital.
- Wear make-up or nail polish

If you are feeling unwell (eg cold/flu) and are unsure if you are well enough for your procedure, please contact your treating doctor or GP for advice before admission.

## Day procedure patients (additional information)

- Please shower with soap on the day of admission before coming to the Day Procedure Unit and put on clean clothes
- Wear garments that are comfortable and easy to remove
- Check with your nurse before informing relatives / friends regarding the time that you should be picked up

# Day Patients

If you are coming into hospital as a day only patient (no overnight stay) then there are a couple of important things to note.

The major effects of your anaesthetic or sedation wear off quickly, however minor effects on memory, balance and muscle function may persist for some hours. These effects vary from person to person and are not individually predictable. Because of this please note the following:

## Important information

- **You are not permitted to drive for at least 24 hours after a general anaesthetic or sedation.**
- **A responsible person must be available to transport you home in a suitable vehicle. A train or bus is usually not suitable.**
- **A responsible person must be available to stay at least overnight following discharge from the Day Surgery Unit. This person must be physically and mentally able to make decisions for you if necessary.**
- **You must have ready access to a telephone in the post operative dwelling.**
- **You must remain within 1 hour of appropriate medical attention until the morning after discharge.**
- **You should not operate machinery or make any important decisions for at least 24 hours after your anaesthetic.**

# Overnight patients

For patients staying overnight at hospital, please check your hospital website for information regarding the services and facilities that are available to you during your stay such as internet access, telephones, televisions, visiting hours and other relevant information.

There is some important information that we would like to share with you here about keeping safe and well during your stay in our hospital:

## Infection Control

This hospital is committed to providing all patients with the highest quality of care by preventing the spread of infection.

Hand washing, high standards of housekeeping, and the use of sterile techniques and equipment are all part of our service to ensure your speedy recovery and to reduce the risk of infection.

Patients and visitors also have a role to play in reducing the risk of infection to themselves and other patients. Here are a few very simple guidelines:

- Hand hygiene is the most effective way to prevent the spread of infection. Alcohol based handrubs are a very effective form of hand hygiene and are located at strategic locations in the hospital. We encourage all patients and visitors to use these.
- We ask that people do not visit the hospital if they have gastroenteritis or other contagious diseases.

## Falls Prevention

The unfamiliar environment of a hospital combined with the fact that you may be on medication or fatigued can increase the likelihood of falls in hospital. Below are a few ways that you can reduce the risk of falling whilst in hospital:

- Take special care when walking or taking to your feet particularly if you are on pain-relieving drugs or other medications.
- Ensure you know the layout of your room and take care when moving around at night. Please use your call bell if you need assistance.
- Check the floors in your area to ensure they are not wet before walking. Avoid using talcum powder which makes floors slippery.
- Ask your nurses for assistance if you need to use the toilet and feel unsteady on your feet.
- Loose or full-length clothing can cause you to trip. Ensure your clothing is the right length for you.
- Check that your slippers or other footwear fit securely. If your doctor has requested you to wear pressure stockings then it is a good idea to also wear slippers over the top to reduce the risk that you may slip. Rubber soled slippers are ideal footwear whilst in hospital.

## Medication Safety

Please provide your nurse with any tablets or medicines (or prescriptions for these) that you have been taking before admission. These will be secured in a personal drug cabinet. Any additional medication you require while in hospital will be ordered by your doctor and supplied to you. When you are discharged, medications that you are required to take will be provided to you to take home.

## Pressure Injury Prevention

A pressure injury is an area that has been damaged due to unrelieved pressure. They may look minor, such as redness on the skin, but can hide more damage under the skin surface.

It is important that you relieve pressure by keeping active and changing your position frequently when you are lying in bed or sitting in a chair. If you are unable to move by yourself, the staff will help you change your position regularly. Special equipment such as air mattresses and booties may be used to reduce the pressure in particular places.

Tell staff if you have any tenderness, or soreness over a bony area or if you notice any reddened, blistered or broken skin.

## Blood Clot Prevention

Blood clotting is the body's natural way of stopping itself from bleeding. Clotting only becomes an issue when it is in the wrong place and blocks blood flow. Being immobile is a big risk in developing a clot and so blood clotting can increase when you are staying in hospital and spending a long time immobile.

In addition, there are a number of risk factors to blood clotting including previous strokes, inherited blood clotting abnormalities, lung disease, being overweight having had major surgery in the past or heart failure, smoking or contraception medications. If you have any of these risk factors, please alert your doctor or the staff.

While in hospital, staff will assess your risk of developing a clot and may ask you to wear compression stockings or sleeves, or they will provide you with blood thinning medication.

Staying mobile, taking any prescribed medications to reduce your risk of blood clotting, drinking plenty of fluid and avoid crossing your legs can reduce your risk of clotting.

If you have sudden increased pain or swelling in your legs; pain in your lungs or chest; difficulty in breathing, please alert your nurse as soon as possible. If these symptoms occur after discharge, seek emergency treatment.

## When You Leave

Before you leave hospital, please make sure you have the following:

- a discharge letter
- all personal belongings
- all personal x-rays
- all current medications
- follow-up appointment requirements

On your way out, please see staff at the Reception, to complete any discharge information.

If you have any excessive pain or are generally concerned about your condition after you leave hospital please contact your specialist, your GP or ring the hospital directly.

## Payment Information

It is very important that you approach your admission to hospital well informed of the financial consequences. Please read the following information and contact your hospital if you have any concerns or queries.

**Privately Insured Patients** - should confirm with your health fund prior to admission the following:

- Does my policy cover me for this procedure?
- Do I have an "excess" payment on my insurance policy?
- Are there any co-payments required for each night I will be in hospital?
- Does my policy exclude some treatments, for example cardiac, orthopaedic or rehabilitation?
- Are any prosthetic or disposable items used in the surgery not covered by my insurance?

Please note that if you have been a member of your health fund for less than 12 months your fund may not accept liability for the costs of this admission, eg if your condition or any symptoms of your condition existed prior to you joining your health fund. Any excess will be required to be paid on admission.

**Repatriation (DVA) Patients** – Gold card holders are covered for all care. White card holders are covered subject to approval by DVA.

**WorkCover Patients** – total payment (aside from any ancillary charges) must be made on admission unless approval for admission has been confirmed by your insurance company.

**Third Party Patients** – total payment (aside from any ancillary charges) must be made on admission unless approval for admission has been confirmed by your insurance company. Please bring full details of claim, including letter from insurance company with you.

**Uninsured Patients** – total payment (aside from any ancillary charges) must be made on admission. Please contact the hospital prior to admission for an estimate of fees and charges. As it is an estimate only, in the event of unforeseen complications or variations from the proposed treatment the cost may vary.

**Overseas Patients** – If you are insured with an overseas company, you will be asked to pay the estimated cost on admission. Please contact the hospital prior to admission for an estimate of fees and charges. As it is an estimate only, in the event of unforeseen complications or variations from the proposed treatment the cost may vary.

**What costs could I incur that will not be covered by my health fund?**

- Pharmacy (medicines required during your admission and discharge medications)
- Pathology (eg blood tests)
- Imaging or x-ray
- Medical and allied health practitioner's fees may be billed separately by the practitioner. Please discuss these with your doctor before your admission. You may receive separate accounts for:
  - Surgeon
  - Anaesthetist
  - Assisting Surgeon
  - Other consultants

- Emergency Centre attendance (if the hospital has an emergency centre and you received treatment in the centre prior to your admission a separate account will be rendered for these services)
- The following incidental items may not be covered by your health fund and will be payable on admission or discharge from the hospital\*:
  - STD telephone calls;
  - Standard **Fee for Incidentals** may apply during your admission.

This relates to Foxtel/Austar and wifi services or business centre access. Please check the hospital website before you are admitted for further information.

*\* Not all hospitals offer these services. Please check at time of admission.*

### How do I pay?

For your convenience, payment may be made by cash, EFTPOS, Bank cheques, MasterCard or Visa. If you are wanting to pay by Amex or Diners, please check with your hospital if these cards are accepted.

If you have any further questions, please call the hospital's patient accounts department.

## Privacy Policy

**Ramsay Health Care Australia (Ramsay) is bound by the Australian Privacy Principles under the Privacy Act 1988 (Cth) and other relevant laws about how private health service providers handle personal information (including but not limited to patient health information).**

**We are committed to complying with all applicable privacy laws which govern how Ramsay collects, uses, discloses and stores your personal information.**

**This Privacy Statement sets out in brief how Ramsay will handle your personal information. For further information or to receive a copy of our full Privacy Policy, please ask a staff member, visit our website: [www.ramsayhealth.com](http://www.ramsayhealth.com) or telephone the Hospital and ask to speak with our Privacy Officer. You can also write to our Privacy Officer to request more information.**

In respect of Patients, Ramsay will collect your personal information for the purpose of providing you with health care and for directly related purposes. For example, Ramsay may collect, use or disclose personal information:

- For use by a multidisciplinary treating team;
- Assessment for provision of health care services;
- To liaise with health professionals, Medicare or your health fund;
- In an emergency where your life is at risk and you cannot consent;
- To manage our hospitals, including for processes relating to risk management, safety and security activities and quality assurance and accreditation activities;
- For the education of health care workers or the placement of students or trainees at Ramsay facilities;
- To maintain medical records as required under our policies and by law; or
- For other purposes required or permitted by law.

In respect of other individuals, Ramsay will collect your personal information in order to engage with you in your dealings with Ramsay and for other related purposes.

Personal information may be shared between Ramsay facilities to coordinate your care. We also outsource some of our services. This may involve us sharing your personal information with third parties. For example, we outsource the conduct of our patient satisfaction surveys to a contractor who may write to you seeking feedback about your experience with Ramsay.

We may outsource information and data storage services (including archiving of medical records), which may involve storing that information outside of Australia. Where we outsource our services we take reasonable steps in the circumstances to ensure that third parties, including organisations outside of Australia, have obligations under their contracts with Ramsay to comply with all laws relating to the privacy (including security) and confidentiality of your personal information.

Ramsay will usually collect your personal information directly from you, but sometimes may need to collect it from a third party. We will only do this if you have consented or where it is not reasonable or practical for us to collect this information directly from you (for example, in relation to a patient, your life is at risk and we need to provide emergency treatment).

We will not use or disclose your personal information to any other persons or organisations for any other purpose unless:

- You have consented;
- For patients, the use or disclosure is for a purpose directly related to providing you with health care and you would reasonably expect us to use or disclose your personal information in this way;
- For other individuals, the use or disclosure is for a purpose related to providing you with services and you would reasonably expect us to use or disclose your personal information in this way;
- We have told you that we will disclose your personal information to other organisations or persons; or
- We are permitted or required to do so by law.

You have the right to access your personal information that we hold about you (for patients, this includes health information contained in your health record). You can also request an amendment to personal information that we hold about you should you believe that it contains inaccurate information.

## Before you're admitted into hospital...

Ask your community pharmacist or family doctor to update your medication list, and make sure that it includes ALL your medicines including those you may have purchased from the supermarket or health food store. This includes:

- + Prescription medicines (including medication you take regularly, and only as required).
- + Over-the-counter medicines
- + Vitamins, minerals and supplements
- + Creams or ointments for the skin
- + Eye drops and eye ointments
- + Inhalers and sprays
- + Patches
- + Pessaries and suppositories
- + Injections

Please bring a few copies of your updated Medication List to the hospital with you.

**Do you take more than 5 medicines?**

**Have there been significant changes your medicines?**

**Would you like to better manage your medicines?**

Ask your Ramsay Pharmacist to give you more details about our medication management programs and how we can support you once you get home.

## DETACH ALONG PERFORATION

# Private Patients' Hospital Charter

Your rights and responsibilities as a private patient  
in a public or private hospital

As a private patient you have the right to choose your own doctor, and decide whether you will go to a public or a private hospital that your doctor attends. You may also have more choice as to when you are admitted to hospital. Even if you have private health insurance you can choose to be treated as a public patient in a public hospital, at no charge, by a doctor appointed by the hospital.

- Information about your treatment - Your doctor should give you a clear explanation of your diagnosis, your treatment (and any associated risks), the associated cost, and other treatment options available. Except for in an emergency where it is not possible, they should obtain your consent prior to any treatment.
- Informed Financial Consent - Your doctor and other health service providers should provide you with information about the costs of your proposed treatment, including any likely out-of-pocket expenses, and obtain your agreement to the likely costs in writing before proceeding with the treatment.
- Other medical opinions - You can ask for referrals for other medical opinions (there may be additional costs associated with doing this that may not be covered by Medicare or your private health insurance).
- Visitors - The hospital you are going to can provide information about visiting arrangements for your family and friends while you are in hospital including family access (and who is considered family), arrangements for the parents or guardians if the patient is a child, and when your friends can visit you.
- Seek advice about costs - As a patient with private health insurance, all your hospital treatment and medical bills may be covered by your insurance, or you may have to pay some out-of-pocket expenses (gaps). In some cases you may also have to pay an 'excess' or co-payment. Before you go to hospital, ask your private health insurer, doctor(s) and hospital about the expected costs of your treatment, including possible costs for surgically implanted medical devices and prostheses. (See overleaf for some suggested questions to ask about costs).
- Confidentiality and access to your medical records - Your personal details will be kept strictly confidential. However, there may be times when information about you needs to be provided to another health worker to assist in your care if this is required or authorised by law. You will need to sign a form to agree to your health insurer having access to certain information to allow payments to be made for your treatment. Under the Freedom of Information legislation you are entitled to see and obtain a copy of your medical records kept in a public hospital. Under the National Privacy Principles you also have a general right to access personal information collected about you by the private sector.
- Treatment with respect and dignity - While in hospital you can expect to be treated with courtesy and have your ethnic, cultural and religious practices and beliefs respected. You should also be polite to your health care workers and other patients and treat them with courtesy and respect.
- Care and support from nurses and allied health professionals - Nurses and allied health professionals provide vital care and support and are an important part of your treatment in hospital. Staff who attend you should always identify themselves and you should feel confident to discuss any issues in relation to your treatment or hospital experience with your health care workers.
- Participate in decisions about your care – Before you leave hospital you should be consulted about the continuing care that you may need after you leave hospital. This includes receiving information about any medical care, medication, home nursing or other community services you may need after you go home.

- Comments or complaints - If you are concerned about any aspect of your hospital treatment you should initially raise this with the staff caring for you or the hospital. If you are not satisfied with the way the hospital has dealt with your concerns, each State and Territory has an independent organisation that deals with complaints about health services and practitioners. If your query or complaint relates to private health insurance, you should first talk to your health insurer. If your concerns remain unresolved you can contact the Private Health Insurance Ombudsman on 1800 640 695 (freecall).
- Provide accurate information - To help doctors/specialists and hospital staff provide you with appropriate care you will need to provide information such as family and medical history, allergies, physical or psychological conditions affecting you, and any other treatment you are receiving or medication you are taking (even if not prescribed by your doctor).
- Long-stay patients - If you are in hospital for a long period of time you may become a nursing home type patient. Talk to your hospital or health insurer about the arrangements for long-stay patients.

## Find out about any potential costs before you go to hospital

### Ask your treating doctor or specialist:

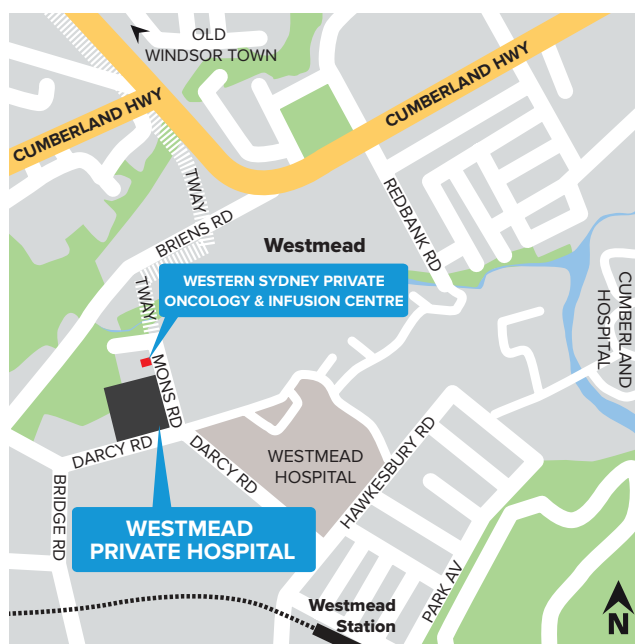

- for confirmation in writing of how much their fee will be and how much is likely to be covered under Medicare or your private health insurance.
- whether they participate in your health insurer's gap cover arrangements and if you are likely to have to pay a gap, how much it will be.
- which other doctors and medical staff will be involved in your treatment and how you can get information about their fees and whether they will be covered by your private health insurance.
- for an estimate of any other costs associated with your medical treatment that may not be covered by Medicare or your private health insurance (e.g. pharmaceuticals, diagnostic tests).
- whether you are having a surgically implanted device or prosthesis and if you will have to contribute towards the cost for this.

### Ask your health insurer:

- whether the treatment you are having is covered by your private health insurance and if there are any exclusions or waiting periods that currently apply to this treatment under your policy. If you are having a baby, talk to your health insurer as early as possible in your pregnancy to find out what rules apply to obstetrics and newborn babies.
- whether you have to pay an excess or co-payment, and, if so, how much this will be.
- about the level of hospital accommodation covered by your policy (some policies only cover being a private patient in a public hospital).
- whether your insurer has an agreement with the hospital you are going to be treated in.
- whether you will need to pay extra for surgically implanted devices or prostheses.
- if any gap cover arrangements are in place that may apply to you.

### Ask your hospital:

- whether the hospital has an agreement with your private health insurer.
- whether you will have to pay anything for your hospital accommodation out of your own pocket.
- whether you will have to pay any additional hospital charges which are not covered by your private health insurance (e.g. TV hire, telephone calls).

## Parking

For your convenience we have designated parking areas for visitors. Disabled parking is also available at the front entrance and side of the building. In addition we have free 30 minute drop off and pick up within the hospital. Please pay for parking at the pay machine located in the atrium.

## Visiting Hours

Visiting hours must be strictly adhered to so that patients have adequate rest time:

- General visiting hours 10am to 12 noon and 3pm to 8pm
- Maternity visiting hours 11am to 12 noon and 6pm to 8pm (partners and siblings are welcome any time)
